

## FRONT BRAKE COVER-UP

HOT TOPPERS has just released a five-piece kit to suit 2008—up Dyna and Softail front calipers.

Available in black or chrome, these kits will give you the look you want without the rust. They enhance the look of your front caliper without replacing your existing hardware. Also, Hot Toppers are guaranteed for life—if they fall off or the chrome peels, blisters, fades or discolours—they replace it free!

## MAVERICK SMOOTH

THE MAVERICK saddle from LePera has become the touring seat of choice for enthusiasts worldwide.

Perfectly sculptured for both form and function, this serious rider's seat never overwhelms the lines of the bike like so many touring seats on the market. You will find the Maverick's clean lines and deep sculpted bucket create just the right amount of back support while retaining the classic lines. Many riders have asked for a built-in backrest; only to find the Maverick was all they needed! Another great feature for the driver is the tapered thigh area for stop and go comfort.

The Maverick is now available in smooth (no stitch) or the standard Maverick stitch.

Contact your local dealer for more info.

## COMFORT MAX GEL PADS

WHEN LOOKING around for something to provide a little bit of extra comfort on those long trips, there's simply no way you can go past the Comfort Max Gel Pads from American Motorcycle Specialties.

The Comfort Max Gel Pads come in a variety of sizes to suit the smallest of pillion seats, all the way up to the largest touring saddles. Starting with a 3/4 inch thick base layer of Viscoelastic Gel, and topped with a layer of memory foam, the Comfort Max pads mould themselves to eliminate pressure points and those annoying 'hot spots' one sometimes gets after a few hours in the saddle.

Available in either a Neoprene, or genuine sheepskin covering, these gel pads feature a unique non-slip base, and an adjustable strap, making them easy to install. There are also specific fit rain covers for each of the pads should you wish for some extra protection.

Ranging in price from \$119.95 rrp through to \$219.95 rrp, the Comfort Max Gel Pads are an investment in your own riding comfort. The optional rain covers all rec retail for \$19.95.

See your local motorcycle accessory store to get your hands on one, or two!
