Thanks, Bob. It's a pleasure to make business with you guys. Regarding pictures, will wait until I'm done with the most of the mods. I used your products for my previous bike (Nightster) and was a very happy Hot Topper user.

Best regards,  
Mikko

Hi, Just got through installing Hot Toppers on my Deluxe, they really do make a noticeable difference (no matter how much chrome you've already got)!

Thanks for the great product!

I have a 2003 FXDL that I had all done up with a paint job and chrome everything on the motor, I put the hot toppers on and love the look. The bike has won 1st place in it's class at shows and everyone turns there heads to look at the bike.

Thanks,

Hi Bob,

I have to say I am impressed about the great lengths you are going for a small customer. Marc form HD in Breda did have the covers I wanted, and I'll be receiving them in a few days.

Really appreciate how you are giving a new meaning to customer friendliness. I'll post likewise on the [www.xlforum.net](http://www.xlforum.net), the forum for Sportster enthusiast from mainly US residents, but (look at me) from all over the world.

Thank you. You rock !

Erik.

**Hottoppers.com,**

I ordered an engine kit and the additional rocker cover kit recently. It looks great!! Problem is, I didn't realize the part# 8-HTB288 meant that there were only eight of the caps! My Rocker has a two inch tank lift and I need four more of the black rocker covers. Please advise! Thanks for your assistance! I added some photos...not very good... I will send more when it's finished. The FXCW folks on [hdforum.com](http://hdforum.com) love them... I gave you guys a good plug! Take care!
