

**HTDBOSS: COMPLETE 350/502 BOSS HOSS KIT**  
**INCLUDES 147 PIECES**

**HOT TOPPERS® are manufactured to fit American Standard fasteners. There are some rare occasions where even though the nut or bolt is an American standard fastener, the Hot Topper® may not achieve a friction fit. In this case we recommend using a Napa clear silicone (Napa Auto part # 765-1481) to achieve a secure fitment. DO NOT USE ADHESIVE PRODUCTS to mount Hot Toppers®. The Napa product we recommend will allow for an easier removal if service is performed. We simply fill our cover with the necessary amount of silicone to achieve a firm hold on the fastener, yet beware that the silicone will expand when it sets up, so don't over fill our part. A little less goes a long way. Please email [info@hottoppers.com](mailto:info@hottoppers.com) or call our toll free USA number 877-446-8867 with any questions or comments.**

HTD100	2	Right side on fuel pump plate located on bottom of engine block
	1	Right side on rear of master cylinder plunger behind brake pedal
	4	Left and right side mounting bolts that hold spark plug wire harness clips in center of block
	2	Left side pulley belt guard support bracket above left swingarm
	8	Left and right side front brake caliper allen bolts
HTD200	1	Right side alternator adjustment bracket bolt
	2	Right side top of front turn signals
	1	Right side on brake master cylinder plunger behind brake pedal
	2	Right side on rear master cylinder body
	4	Left and right side foot control assembly adjustment plates
	4	Left and right side on front and rear gas tank mounting bolts
	3	Right side top of intake manifold under gas tank
HTD220	4	Handlebar clamp mounting bolts
	4	Right side recessed allen bolts on rear brake caliper
	4	Kickstand bracket
HTD265	10	Button torq mounting bolts on front brake rotor radiator shroud
	2	Radiator shroud
HTD300	4	Left and right side caliper support brackets
	4	Left and right side safety bar mounting bolts
	2	Fuel pump plate located on bottom of engine block
	2	Left and right side footpeg adjustment plates
	6	Left and right side engine block to lower mounting bracket
	2	Front and rear on rear brake caliper stationary rod
	2	Rear brake caliper mount to caliper bracket bolt
	4	Spark plug wire harness clips – front and rear of cylinder heads
	1	Left side on frame near front footpeg
HTD311	1	Brake line junction block under lower triple tree
	2	Bake of shift pegs
	1	Nut in front of left side rear foot peg mount
	2	Front of frame to engine mounting bracket
	1	Front of shifter rod

	8	Left and right side cylinder head bolts by exhaust manifolds
HTD343	1	Main shaft nut on the front of alternator
HTD400	2	Fork stops on top of bottom triple tree
	1	Steering stem bolt – top of triple tree below handlebar
	2	Front of frame to engine mount brackets
	4	Top and bottom rear shock mounting bolts
	4	Left and right side top of swingarm
	4	Rear belt pulley bolts
HTD420	2	Left and right side exhaust pipe hanger bracket bolts
HTD500	1	Alternator bolt on front side of adjustment bracket
	4	Front fender mounting bolts found inside fender at fork leg
	4	Front and rear footpeg mounting bolts
	1	Left side bolt above oil filter mid frame under seat
HTD600	4	Front and rear upper and lower safety bar mounting bolts
	1	Alternator nut on back side of adjustment bracket
	4	Front and rear footpeg mounting nuts
	5	Rear brake rotor mounting nuts (on the back side)
	1	Nut at frame near rear footpeg
	2	Front and rear of front footpegs
