HOT TOPPERS® are manufactured in the USA to fit American Standard fasteners. There are some rare occasions where even though the nut or bolt is an American Standard fastener, the Hot Topper® may not achieve a friction fit. In that case simply install a drop of silicone on the inside wall of the Hot Topper® using Napa® part number 765-1481 clear silicone or facsimile.

Please DO NOT USE adhesive products to mount HOT TOPPERS®. The Napa® product we recommend will allow for an easier removal when service is required. We simply fill our cover with the necessary amount of silicone to achieve a firm hold on the fastener, yet beware that the silicone will expand when it sets up so don't over fill our part. A little dab goes a long way.

Before you begin this easy installation process we suggest you completely wash and dry your motorcycle, especially the fasteners to be covered.

Note the accompanying diagram that calls out the part number of each Hot Topper® mounted on the adhesive patch. Start the install process with the smallest HOT TOPPER® - the HTD100. As you install them note the size and style of the other zinc original uncovered fasteners.

PART #	QTY	LOCATION OF PART
HTD100	13	Left side primary cover allen bolts
	1	Left side crankshaft position sensor allen bolt in front of cylinders next to oil filter
	6	Right side top of transmission housing cover allen bolts
	6	Right side clutch release cover allen bolts
	10	Right side cam cover allen bolts right side
	8	Right side lifter cover push rod allen bolts right side
	2	Front of bottom saddlebag support arms bolt underneath the saddlebag
	2	Allen bolts on black bracket in front of gas tank above front cylinder
HTD200	1	Left side SILICONE on the top of shift lever allen pinch bolt
	1	Over allen bolt on rear shifter rod lever behind the inner primary cover
	8	Right side transmission housing allens bolts
	1	Front safety bar mounting allen bolt to frame
	2	Right side starter housing mounting bolts behind upper transmission cover
	2	Right side brake master cylinder
HTD220	2	Front of engine over recessed allen bolts at oil filter mount
	4	Snip stems and SILICONE over the recessed allen bolts on Brembo brake calipers
HTD265	10	Front brake rotor button torx mounting bolts
	2	On both inner fairing lowers screws that clamp the lowers to the engine guard
	4	SILICONE over recessed torx bolts on Left and right side fairing support bracket bolts on sides of passing lamp bracket
HTD282	4	Large 12-point bolts that mount front brake calipers to fork legs
HTD288	8	SILICONE over rocker cover hex/torx bolts, requires a few drops of SILICONE on stem
HTD300	2	Left side front over the allen bolt on stabilizer arm
	1	Motor mount bolt on top front on front cylinder
	1	SILICONE over exhaust bracket hex nut behind rear cylinder above starter
	2	Right side over the hex nuts on the bottom of fork leg at the front axle
	2	Left and right side rear footboard mounting allen bolts

INSTRUCTIONS

PART #	QTY	LOCATION OF PART
HTD311	5	On left side over engine case hex bolts under cylinders
	2	Over front gas tank mounting hex bolts left and right side
	2	Both sides fork tube drain plug
	2	SILICONE over banjo fittings on brake master cylinders (handlebar and behind brake pedal)
	3	Left and right side upper and lower engine to transmission hex bolts
	4	Left and right side footboard mounting plate hex bolts near swing arm
	HTD365	2
2		SILICONE over ends of heel/toe shift lever pegs
HTD400	2	Left and right side bottom engine guard SILICONE over mounting bolts
	1	SILICONE over the large hex nut on the right side rear brake pedal mount at pivot under the front floorboard
HTD500	3	Left front lower engine mount hex bolt
	3	Motor mount bolts on top of front cylinder
	2	Left side upper motor mount hex bolts above horn under gas tank
	1	SILICONE over black allen bolt behind inner primary where shifter linkage connects
HTD555	1	SILICONE over right side hex nut toward rear of transmission cover behind exhaust
	2	SILICONE on backside of left and right side lower triple tree, top of shocks (small hex bolts)
HTD600	2	Front bottom of inner frame hex nuts (behind lower crash bar mounting bolts)
HTD708	1	Conversion kit!! Replace button torx screws on brake and clutch lever perches with supplied allen bolts and press on Hot Toppers®
HTD733	1	Conversion kit!! Replace button torx screws on derby cover with supplied allen bolts and press on Hot Toppers® (IMPORTANT: when replacing each button torx screw with allen bolt, make sure the allen bolt is the exact length of the button torx bolt. Also be sure to only change one bolt at a time so the gaskets do not loosen)
